## Journal Statement

International Journal of Culture, Governance and Development (IJCGD) is an open-access journal published by the Centre for Creative Economy and Cultural Studies, Akwa Ibom State University. A peer-reviewed journal, it publishes well-researched articles in multi-disciplinary areas of scholarship, including but not limited to Management Sciences, Social Sciences, Arts, Agriculture and Environmental Sciences. This is premised on the fact that culture impacts governance, while governance is a necessary ingredient for development. The advancement of society requires governance as a first-line charge. If good governance and development must be achieved, there is a need for investment in scientific research in the various disciplines to drive sound principles, policies and programmes to drive not just development but development that transcends time and generations. The Journal of Culture, Governance and Development is a bold platform to attain the nitty-gritty that permeates culture, governance and development.
